Scan parameters

URL: http://demo.pentest-tools.com/url_fuzzer/FUZZ
Method: GET
POST Data:
Fuzz types: No extension, Custom extensions, Configuration files, Source code files, Archives, Database files, Logs, Backups files, Documents, Web files
Custom extensions: asp, php, xml, md, env
Options: Dynamic wordlist, Mutate found files, Recursive (maximum depth = 3)
Wordlist: URL Fuzzer (default) (1245 words)
Custom headers:
Number of threads: 7
Request Timeout: 4
Delay between requests: 0
Maximum number of retries for a request: 3
Retry delays factor: 1
Force retry on HTTP codes:
Response filter: Auto
Match HTTP codes: All
Match response size: All
Match response content: All
Ignore HTTP codes: None
Ignore response size: None
Ignore response content: None
